

# FACULTY OF BUSINESS ADMINISTRATION

## ALUMNI REPORT 2020

**BILKENT  
UNIVERSITY**

**CFA Institute**

# LETTER FROM THE DEAN

Dear Bilkent FBA Alumni:

In this brief document we would like to share with you some basic statistics about our graduates as well as some recent news of the Faculty of Business Administration.

I have been appointed as the Dean of the Faculty of Business Administration (FBA) by the end of 2016 and it has been a great privilege for me to be in this esteemed position. Although I have been a part of Bilkent University for a long time (at the IE Department), being the Dean of FBA has given me great opportunities to get to know better a new faculty, its invaluable faculty members and staff as well as its alumni/ae some of whom I have been able to meet on various occasions. Connecting with all of the stakeholders of our faculty has been a priority for me since I stepped in this office.

At our business school, our students step into a life-long network of more than five thousand alumni spanning the entirety of our country and the globe. We should all be aware that we are the members of a big and strong community. As faculty members, current students, alumni/ae, families, societal and business partners, we can, all together, strengthen our ties further for the good of us all.

Since 1986, Bilkent FBA has graduated 5443 students, 4044 from Undergraduate, 1008 from MBA, 323 from Executive MBA, 42 from MS and 26 from Ph.D programs and currently we have a total of 998 students across the programs. In 2016 Bilkent Faculty of Business Administration has successfully completed the Continuous Improvement Review process and received a renewal of its accreditation from AACSB (Association to Advance Collegiate Schools of Business) International for the third time and is proud to be the first AACSB accredited business school in Turkey.

As faculty members, we have always been proud of our alumni\ae, and our pride grows every day as we get to observe your achievements on social media and other media outlets. Your achievements pave the way of our current students to achieve their own career plans as well, always feeling the strongest reputation behind them built up by yourselves.

I would like to extend my gratitude to faculty members Süheyla Özyıldırım, Banu Sultanoğlu, Lale Tomruk Gümüşlüoğlu, Tolga Baycan, and our administrative assistant Buket Bıyıklı for bringing together the alumni/ae data, to organize and present them in an informative form and Emre Berk for editing and to Su Abaç, a senior Architecture student at Bilkent, for her invaluable contribution to bring the document to the final form with an artist's touch.

I very much hope that in the coming days we will energize our alumni to deepen their relationships with the students and the faculty of FBA. Please do not hesitate to contact me any time at [dean@fba.bilkent.edu.tr](mailto:dean@fba.bilkent.edu.tr).

Sincerely Yours,

Ülkü Gürler  
Dean, Faculty of Business Administration

# UNDERGRADUATE ALUMNI STORIES

Çağla Akın (2015)  
Financial Analyst, Amazon

“One word, “empowered”. As a Bilkent FBA alumna, I feel empowered to achieve anything as a young professional. Once a professor said: “We want to see you fly higher than where you are” and that defined my journey since then. Right after my graduation, I joined Deloitte Financial Advisory as the youngest member of the team. I got admitted to a top tier PhD program at Carnegie Mellon University among thousands of successful candidates. Today, I am working at a world leader tech company and I can doubtlessly say that Bilkent FBA equipped me with the knowledge and confidence to jump higher in every career step I take.

Bilkent FBA provided me a lifelong label that defines me as a successful and professional individual and opened various doors to me with its broad network. I feel very lucky and grateful to have my roots at Bilkent FBA, which always feels like my second home.”

Gözde Yıldırım (2013)  
Product Manager,  
Vestel UK Ltd.

“Straight after my graduation from Bilkent FBA, I started my career in the UK and from the first day I can confidently say that I always felt well-equipped to be a competitive and successful employee in another country with completely different dynamics. Additional to all valuable academic knowledge I gained in Bilkent, more importantly I embraced a set of professional behaviors which give me a unique universal etiquette. Thanks to my “Bilkent” mindset, my urge to learn more and work harder grows more and more each day.”

Dilşah Teker Croci (2011)  
Manager, EY-Parthenon

“Bilkent FBA is a label of recognition, quality and power. From the very first day of my Bilkent FBA alumna life I feel blessed and proud of being a Bilkent'er. Right after my graduation I joined EY Transaction and Advisory Team as the youngest consultant. As I was walking through my career path I understood better that Bilkent is a powerful life-companion. The skills I was provided with in Bilkent such as; 360° thinking, multilingual expression/comprehension capabilities and cultural adaptation acumen led me to continue my professional life one step ahead from my colleagues. I have always been a recognized member of my team especially for the international projects and now I am a Manager in EY, Strategy Department in Italy also capable of teaching Retail & Fashion and Luxury masterclasses. I always felt very grateful to be a Bilkent FBA alumna and I always will be.”

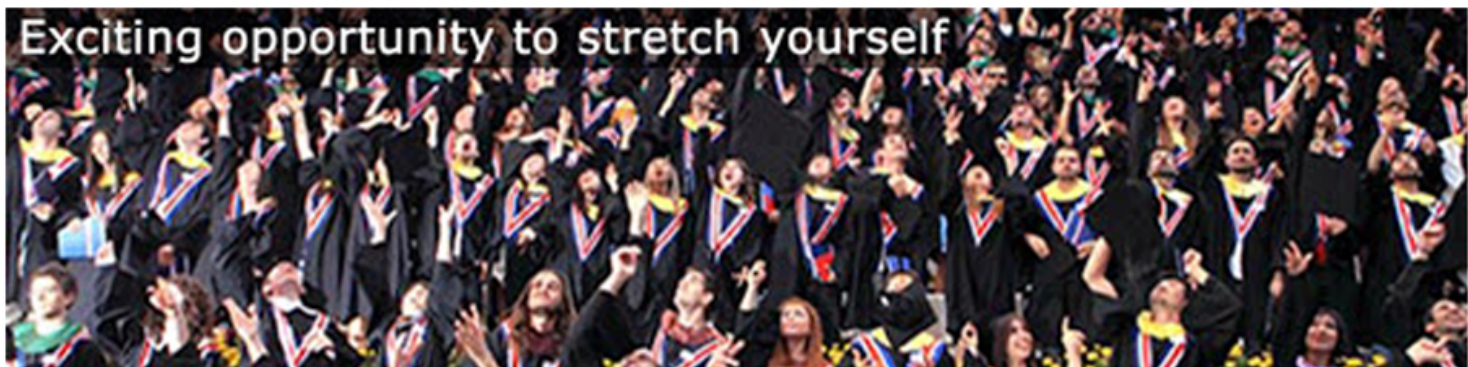

Ömür Aydın (2009)  
Internal Audit Manager,  
MUFG Bank (Europe) N.V.

“Bilkent FBA provides the right maps and tools for the journey that you are on. Even 11 years later, I still remember the lectures that I participated in like they were yesterday. I am still using the maps and tools that I received from Bilkent FBA by updating them with new information and experiences which I gain during my professional work experience. Moreover, Bilkent FBA is a science hub where you can meet highly intellectual faculty members. I was actively involved in conversations with my professors about future, change, economics, philosophy, politics, strategy and so on. In that regard, not only tools and maps but also intellectuality is another valuable intangible asset that you may want to keep in your professional balance sheet. My brilliant four year experience in Bilkent FBA helped me to get admitted to best business school in London and now I work in one of the largest financial institutions as a manager in the Netherlands. I always feel honored to have been a part of Bilkent FBA where I found my true self.”

Exciting opportunity to stretch yourself

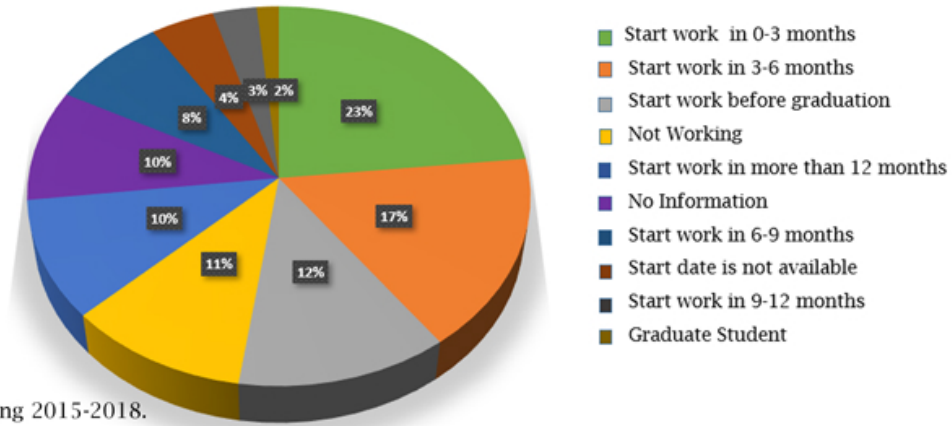

We are very proud of our graduates...

# MBA ALUMNI EMPLOYMENT BY INDUSTRY

# MBA ALUMNI JOB TITLES

# MBA ALUMNI STORIES

Ilgın Özdemir Yazgan (2008)  
Founder of Accouchee,  
CBFW Mentee

"In the new world of big data and open sources for all, you can easily learn anything even from various distant-learning programs. Yet, none of them can provide you with the solid network of distinguished professors and more important than all a solid network of classmates each of which will thrive in the near future. Bilkent MBA surely provides you with the essentials of being successful at work, you can even arrange your courses in such a way that you may choose to get experienced in a certain field. In my case, Bilkent MBA not only provided me with a degree but also with awareness on what I like the most in life, branding and marketing! I was a scholarship student so I was trying to do my best in each and every course; yet my grades were clearly showing what my core competence was and what I like spending time on. I was so lucky to have a marketing professor who taught me how to think out of the box, how to be one of a kind and how to stand against the norms. If I have my own brand today, I should owe a thank you to my marketing professors in Bilkent. My last but not least suggestion would be to find what you would wholeheartedly work on to spend all your days enjoying your work. In that case, success and money would be natural consequences rather than goals. Put your heart in all your decisions as well as choosing your university."

Çatay Güney (2016)  
Asset Management,  
London Business School

"Although it may sound cliché, MBA programme of Bilkent University has truly changed my life. When I began to study here, I did not know almost anything about how businesses and overall economy works and had much narrower vision for my further career. In course of the programme, I have decided on where my future career is; learnt a great deal about it and eventually changed my work, my city and my future, met my mentor; who inspired, influenced and helped me a lot along my way and found courage and inspiration to found a start-up in the very beginning, I was working for a slow and heavily bureaucratic company offering nothing for development of my skills. Right now I am based in one of the global money management centres and confidently moving further in my career. All has begun in Bilkent MBA."

Gökhan Tufan (2014)  
Account Technology  
Strategist, Microsoft

"Bilkent MBA education is once in a lifetime experience where you start to unleash your potential, grow with real life business cases, learn from world-class academicians, and discuss with professionals from diverse background and industries. This is the place you will be empowered with management, finance, marketing, sales and strategy skills. Bilkent MBA will open doors to the world."

Hao Li (2017)  
Community Content Management  
Country Team Leader,  
ByteDance

"Choosing to study in the MBA program in Bilkent University is one of the best decisions I have ever made in my life. The top-notch faculty with their considerable experiences in the local and global business world, the student body with different backgrounds, as well as the supportive administration team, make my two-year in Bilkent a really enjoyable and rewarding journey. Upon graduation in the summer of 2017, I took an offer from ZTE Corporation, one of the largest telecommunication equipment manufacturers in the world, as Human Resources Manager in Turkey, when the company was in the process of integrating its local operations with its recently acquired local subsidiary. In 2019, I decided to move to ByteDance, the owner of TikTok, as the country leader for its newly established community content management department. Within one year, we have quadrupled the size of local team to serve our fast-growing number of users in Turkey. The decision to continue my career in Turkey and the courage to explore the uncharted path, should be largely attributed to my education in Bilkent. Because the MBA program imparts me necessary knowledge and skills to develop my sensitivity, to business governance, culture and people management in the local market, whereby prepares myself ready for working in different sectors and different roles".

İsmail Kök (2016)  
Chief Researcher,  
TÜBİTAK BİLGEM

I knew I wanted to start my own business and become a better leader. Here's how Bilkent MBA helped me do it. I remember the interview with the MBA committee like it was yesterday. I stated that I would resign from the Turkish biggest defense company and found my own company. Then I questioned how Bilkent MBA would help me. The committee stated that I would see after graduation. They were right. Bilkent MBA experience made me a much more confident person on what I really want to do and articulate my own business to take a broader perspective. Learning and growth opportunities were unlimited. Ultimately, I found my own company two months after graduation and feel that I am equipped with necessary mental and solid tools to overcome challenges of business world.

# INSTANCES FROM FACULTY EVENTS

The parents of Bilkent FBA undergraduate students get together with the faculty members on Family Days. Families and faculty members get a chance to chat at the cocktail afterwards.

Get together with alumni who reside in Ankara.

Information sessions for FBA international students followed by a lunch with the students, Erasmus/Exchange Committee and the faculty.

Mr. Cüneyt Yavuz, CEO of Mavi Jeans, delivered a talk on "Mavi's journey to become a global brand" both for our students and faculty members.

The collaboration of EMCC (European Mentoring and Coaching Council), ESIAD (Ege Sanayici ve İşadamları Derneği) and Bilkent FBA started to provide a mentorship program to both our graduate and undergraduate students. The second round of the activity was started at the beginning of 2020 with a new group of students.

# EMBA ALUMNI STORIES

**Erendiz Dilara Güner (2018)**  
Finance Manager,  
Coca-Cola A.Ş.

"As someone who had the chance to complete her undergraduate education at Bilkent University, participating the Bilkent University EMBA program was a privilege for my career. It has been much more than an educational experience. It has been a phenomenal leadership training, personal growth and professional development experience as well. I think the entire program is very well designed and add tremendous value to my long-term career aspirations. The program challenges students to reach the apex of their personal abilities by challenging them academically and professionally. A focused and very well balanced, innovative curriculum in finance, accounting and management tries to improve our strategy and innovation skills. The course content is interesting, meaningful, and has clear applicability to the everyday work of mid-level to executive-level managers."

**Yılmaz Tokgöz (2019)**  
Category & Channel  
Development Director,  
Unilever

EMBA has an excellent starting point with the orientation program by a sailing activity that was not just fun & relaxing while being a magnificent ice breaker igniting good fellowship. I was interested in having a broader perspective of business management in terms of finance, strategy etc. so as to position myself for more senior leadership roles. Our environment is fast changing and disruptive. Bilkent EMBA has had an impact on my curiosity and courage and allowed to reinvent myself and my skills through learning and exploration. Everyone brought their own experiences to the class, which really helped to bring the theories and case studies to life that leveraged my learning curve. I have learnt so much through interactions with my classmates: they were from diverse industries, backgrounds and personalities which created a very rich exchange of ideas and opinions, alternative perspectives. Especially valuable was the Global Competitive Strategy Program at University of Michigan. It was an amazing experience to clear some personal blind spots and ignite my learn -unlearn - relearn cycle. Personally, it pushed me to get out my comfort zone. Balancing work, family and study was challenging but studying on campus was refreshing. Devotion is the crucial part of success at EMBA. EMBA made a difference for me in two key points. Firstly, the people I met – it is more than networking, it is great amity. Secondly Bilkent EMBA program really provides a unique opportunity to take time out from your day-to-day activities to reflect on personal priorities and directions. I feel privileged and grateful to be a part of the Bilkent EMBA family.

**Tevfik E. Kor (2019)**  
Business Development Manager,  
3M Science

"Bilkent EMBA Program; a serious, well balanced, well taught and professionally organized Executive MBA program. I have greatly enjoyed this program, learned a great deal to add to my Business Pedigree and made personal and professional friendships that I will cherish and respect rest of my life. This program is a must for every Manager who wants to increase their business acumen and to develop into higher professionals that would run businesses in the future."

# INSTANCES FROM MBA & EXECUTIVE MBA EVENTS

September is the time for Bilkent University Executive MBA participants to sail in blue waters of Göcek, Bodrum or Orhaniye. The three day activity is organized in collaboration with Ankara Sailing Club.

MBA Students in the study room in MA building

Berk Yayvak:

“Bilkent FBA is the only one school that has attracted me with its excellence in teaching and research”

26 PhD Graduates

42 MSc Graduates

40% of PhD Graduates Have Academic Positions Abroad

# MSc & PhD ALUMNI STORIES

Berk Yayyak, M.S. (2013)  
Senior Associate,  
Undersecretariat of Treasury

"After receiving my Bachelor's degree, I decided to take part in an outstanding graduate program in finance. Among the graduate programs offered in Turkey, Bilkent FBA is the only one that attracted me with its excellence in teaching and research. The program provides students the theoretical background along with strong research attitude. By way of the finance seminar series, the program gives students the chance to be aware of recent research topics. The faculty members are very knowledgeable in their fields and can provide mentorships for students. There is also a nice interaction between the faculty and the graduate students."

Öncü Hazır, PhD (2008)  
Associate Professor,  
Rennes School of Business,  
France

"After receiving my M.S. degree, I decided to pursue an academic career and applied to Bilkent University. The internationally known faculty and the high quality in teaching and research were the crucial factors in my decision to select Bilkent FBA. I also thought that the connections of Bilkent FBA with the other leading universities and academics would help me to initiate joint projects with them and to improve my vision. In fact, my professors guided me to write papers and my advisor helped me to make an academic visit to Technion in Israel during my studies; these helped me a lot to develop myself. Consequently, I found opportunities to work in leading universities in France after my graduation. In this respect, I strongly advise Bilkent FBA to those who would like to start a successful academic career."

Meltem Türe (2013)  
Assistant Professor,  
Skema Business School, France

"Bilkent University offers one of the most challenging and rewarding graduate programs in marketing in Turkey. Faculty members have excellent academic knowledge, are capable of offering great courses, and publish in top journals. Moreover, Bilkent invites distinguished marketing practitioners and academicians for talks and hosts seminars that bring together a diverse set of researchers from around the world. As such, graduate students in Bilkent become parts of important networks before completing the program, which greatly improves their career paths. More importantly, as graduate students support, work with, and encourage each other, the environment is friendly, welcoming, and productive."

## RECOGNIZING RESEARCH EXCELLENCE

Dean's Awards have been established to recognize graduate students for their achievements in their studies and high quality research. Recently, Dean's Award for Excellence in Research has been given to İdil Ayberk - Phd Student, Dean's Award for Excellence in Academic Performance has been given to Orçun Turan - MS Student and Dean's Award for Excellence in Departmental Citizenship has been given to Dr. Murat Tiniç (PhD alumnus 2019). Among the outside recognitions, Dr. Naime Usul (2017 PhD alumna) has received the 2017 Hakan Orbay Research Award for PhD Studies and Gizem Yalçın (2015 PhD alumna) has received The Professor G. W. J. Bruins Prize, given annually by Erasmus University at Rotterdam to recognize outstanding academic performance and research abilities. Our sincerest congratulations to all of them!

## AWARDS RECEIVED BY FBA FACULTY

Dr. Fehmi Tanrısever has received the prestigious BAGEP 2019 award for young scientists granted by Bilim Akademisi.

Prof. Dr. Kürşat Aydoğan has received one of the four Distinguished Teaching Awards of Bilkent University in 2018.

Dr. Ahmet Şensoy is awarded with 2018 TUBİTAK Bilim Teşvik Ödülü in Social Sciences
