# The Problem

**80% of AI project time is spent on data tasks, limiting progress.**

**Data labeling for AI is slow and costly.**

**Lack of monetization system in P2E games.**

**BlueBit**

**Gamifying** data labeling  
to make it **faster** and  
more **engaging**.

# Solution

Data labeling becomes a **game**: fast and fun.

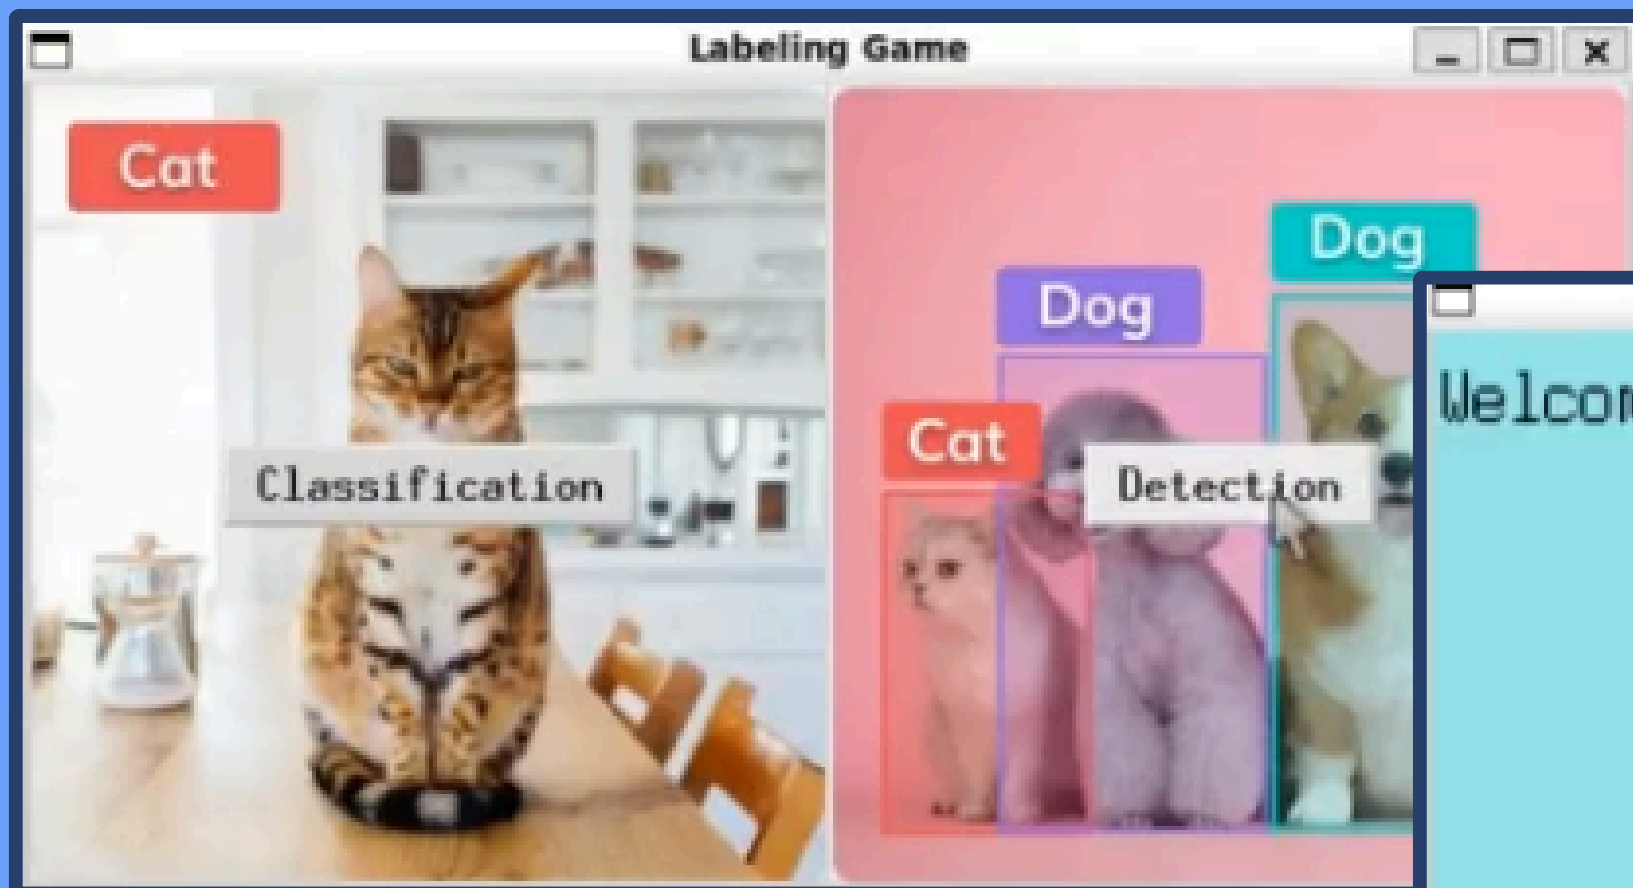

**Speeds up** AI development efficiently.

Earn money by **playing** games that teach AI.

Platform for **crowdsourced** labeling.

**BlueBit**

**Play!**

**Label images with different styles...**

**Detect!**

Find the item, train AI, and boost your score.
