Feride Doğan has been working as the Sustainability Vice President at Akbank for over five years. Prior to joining Akbank, she served as a sustainability consultant at ING Global, ING Green Bank and ING Türkiye, and worked in various roles in the civil society sector, including Impact Finance Project Manager and Corporate Social Responsibility Manager. She is currently an active board member of the Corporate Responsibility Association of Türkiye. A graduate of Bilkent University's Business Administration Department, Doğan also holds a Master's degree in Sustainability and Management from Royal Holloway University.

Muratcan Başkurt is working as Sustainable Finance Vice President at Akbank, he holds a Master's degree in Environmental Sciences, Engineering and Management and is currently pursuing his PhD studies. Prior to Akbank, he served as sustainability engineer and sustainability& climate change consultant.

He is focusing on developing sustainability-oriented products and services for corporate, commercial, SME and retail segments clients; enhancing Akbank's green and social assets.

Mehtap Yılmaz is the Senior Vice President, Trade Finance and Cash Product Management at Akbank. She started her banking career 29 years ago after she graduated from Boğaziçi University, Business Administration. She also has an MBA degree from the University of Exeter, UK. She is responsible for product development of cash management and trade finance products. Her team serves all customer segments from retail to corporates with the ambition to provide the best solutions for their payments and collections needs by leveraging Akbank's strong digital and innovation capabilities.
